## **Teaching Philosophy:**

*Assess the students learning style, strengths, weaknesses and goals to help them find their most repeatable, and enjoyable swing so that they can maximize their enjoyment of the game of golf.*

## **Teaching Strengths:**

*High knowledge of the technical aspects of the golf swing, excellent short game and scrambling instructor. Use video as needed and believe in technical aids but doesn't depend on them. Very proficient at the ball flight rules and how they tell the story of swing and impact faults and subsequent fixes.*
